Education

2011- **Master in Computer Science**, Faculty of Engineering, Lund University.
Specialization in software development with focus on algorithms, object-oriented programming, data structures, compilers, databases, and operating systems

2008-2011 **The Natural Science Programme**, Katedralskolan, Lund

Work Experience

2013, 2014 **Developer**, Qliktech, Lund
Summer internship at the Documentation and Localization department at Qliktech where I developed automated tests for their help portal.

2009-2012 **Tester/Developer**, Qliktech, Lund
Summer internship at R&D and Sustained Engineering. I did manual bug testing, bug fixing and some other light software development. For the summer of 2012 I wrote an add-on for QlikTechs core product, which makes it easier to create the graphs used in the six sigma model.

2010- **Scout leader**, Bjärred Scoutkår, Bjärred
I've been a scout leader for children age 8-9 for more than 4 years. I've planned meetings, hikes and camps and then carried them out. I was working for the service team at the World Scout Jamboree 2011 and then another scout camp called Boomerang 2012.

2009 **Parks maintainer**, Lomma Parkförvaltning, Bjärred
Summer job in the parks and recreation department with cleaning and maintaining of parks.

Non-profit work

2013 **International Mentor**, Lund University
I was a mentor for a group of exchange students at Lund University. I helped with questions about Sweden and Swedish university studies and planned activities and trips.

2012, 2014 **Mentor**, Datasektionen LTH, Lund

I was a mentor for a group of new students at computer science in Lund. The duties involved planning activities, answering questions, helping with problems and making sure that the new students got acclimated.

Skills and Competences

Good Java competence

Good Android competence

Basic C competence

Some knowledge in HTML/CSS/JavaScript

Lesser Python knowledge

Work experience with agile methods

Some experience with C#, MySQL and Assembly among other things.

Language Skills

Swedish – First language

English – Very good

Spanish – Limited knowledge

Other Merits

I have created and published two Android applications. A song lyrics application and a guide application for new computer science students at Lund University in Sweden.
